Comments All of the commercials on this channel during the show are over the volume of the television program because I still have to lower the volume when they come on & then raise the volume when the television show comes back on, especially the movie commercials for the new Sylvester Stallone picture, KFC, KIA Sorrento, Apple I-Phone 5, FX Anger Management TV Show, FX The Americans TV Show.

Comments	All commercials that are for FX's own programs (Ultimate Fighter, Anger Management) are much, much louder than the movie they are showing, and they're much louder than the other commercials they show.
